

dMedicus MTH

Your Pain

95% of the time pain is muscle pain. It may be caused by bad joints or discs but the pain is muscular in nature.

The dMedicus MTH is a combo stim that treats both muscle nerve and joint pain.

This is what we need from you to supply you with a dMedicus MTH:

1. We need a doctor's prescription. This prescription must have two things:
dMedicus MTH unit with 12 months of supplies.

Diagnosis code used to describe the pain you have.

Please be aware that Medicare will not pay for this device for low back pain. There is a list of the actual codes that will print with these instructions for your doctor's review. It also has the codes that will not be covered.

2. We will need the progress notes for your last visit to your doctor. These notes will describe your pain. The diagnosis code describing your pain should correspond with the diagnosis code on your prescription.
3. We will need your insurance and contact information.
